

Clean Energy Committee

THE EVERGREEN STATE COLLEGE
CLEAN ENERGY COMMITTEE

THE CLEAN ENERGY COMMITTEE

- Student fee created to purchase green energy
 - Puget Sound Energy and Tacoma Power
- Goals of reducing the campus carbon footprint through research, education, or implementation

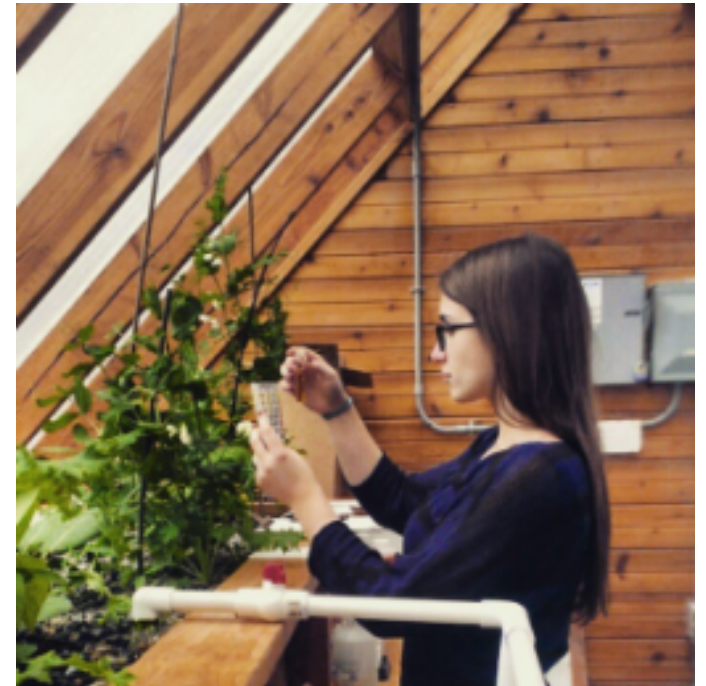

FOOD GUIDE

- Directs students to food resources on campus and in the community
- Includes a short guide to recycling and composting on campus, and a guide to seasonal eating of vegetables and meat.
- Printed with soy ink on 95% recycled paper
- <http://www.evergreen.edu/dining/foodguide>

AQUAPONICS

- Initial \$11,000
 - Media Based System
- Vertical Tower \$1, 756
- Re-Allocation \$5, 560
- Test Kits \$325
- Fish Food \$352
- Upkeep \$562
- pH Data Logger \$514
- Total over \$20,000 since 2011

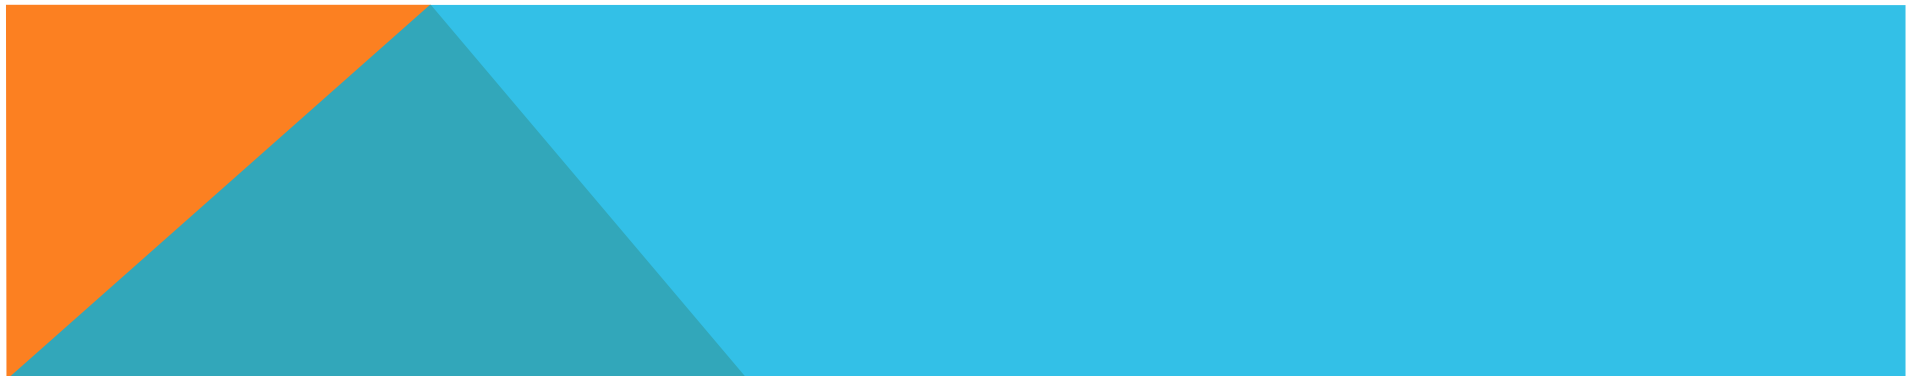

BUS PASS

- Prices for the bus system increased by 45% due to rising fuel costs
- This created a cash shortfall of \$75,000
- Instead of making a dramatic change with the student fee, it would be gradual with student funding

The Down Payment on Your Transit Pass?

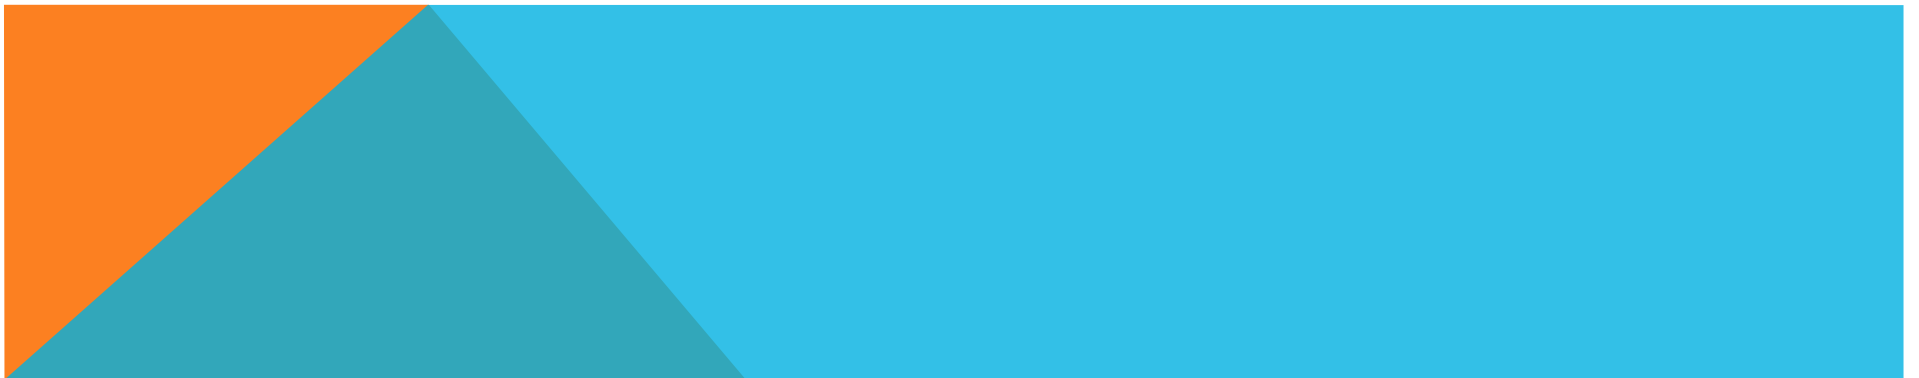

#WeFundedThat

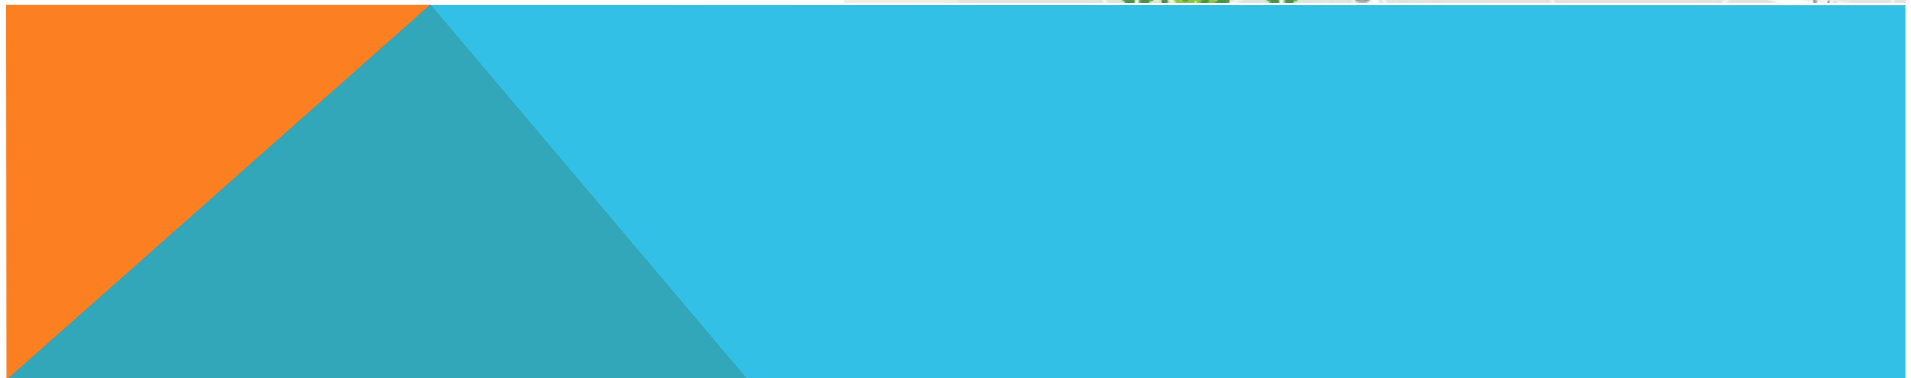

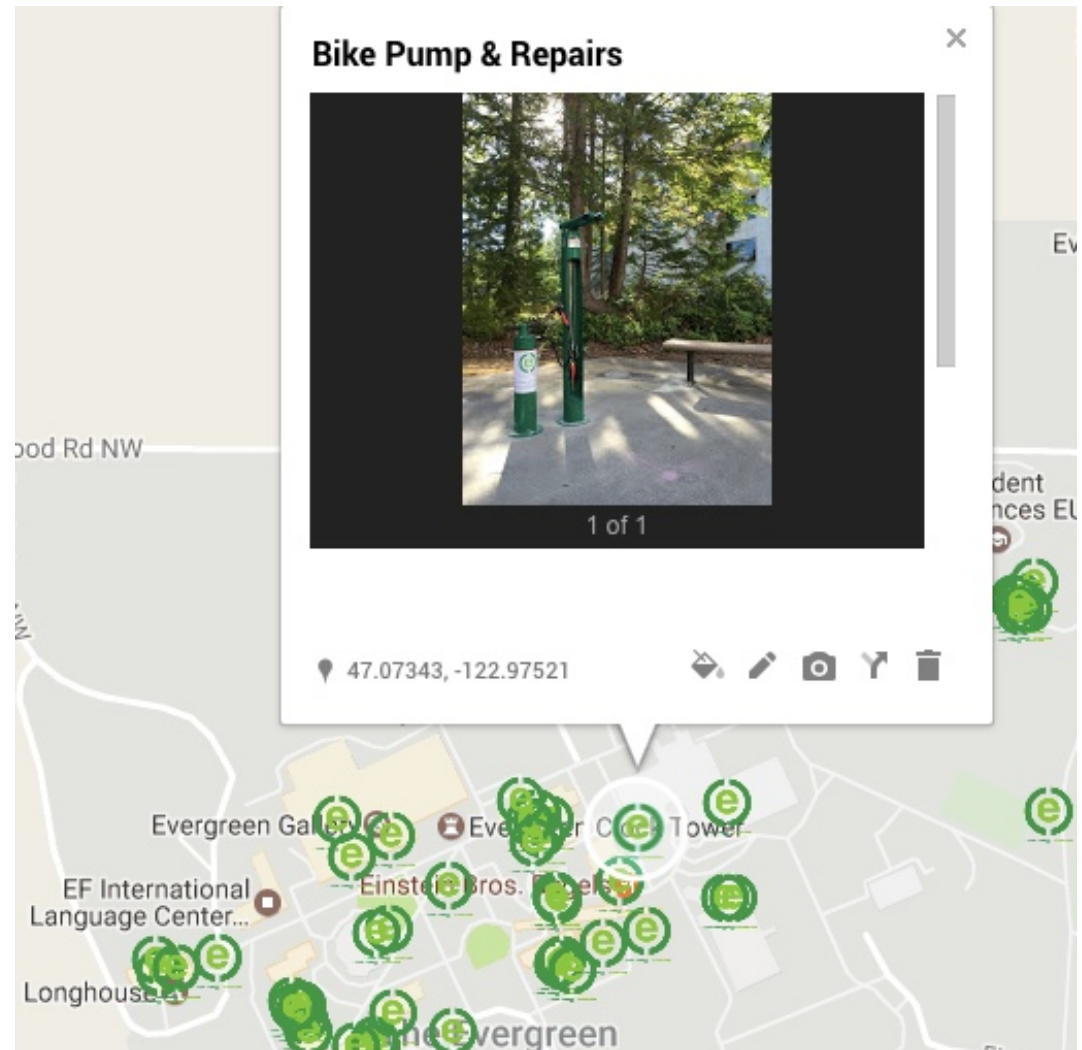

CHALLENGES WITH STUDENT LED INITIATIVES

- We go in after the fact, and are not preemptive when large renovations are made
- Turnover of students every year
- Multi-year larger projects hard to complete
- Time that the administration and faculty has for projects

SUCCESSSES

- Advertising
- Representing Students
- Infrastructure for future years
- Being an advocate for campus sustainability
- Regardless of administration changes there is always a dedicated fund

THANK YOU!
